

**PORT/INTERMODAL/TERMINAL
MATERIAL HANDLING EQUIPMENT**

Brooklyn, New York-based Silent Hoist & Crane was one of the pioneers in material handling equipment for American ports, manufacturing products such as heavy-duty forklifts and container handlers. Their presence at New York ports and others along the coasts helped boost the nation's import/export business, as well as pave the way for other manufacturers and innovative equipment.

Silent Hoist & Crane is now Hoist Liftruck and we are poised to introduce a new generation of material handling equipment for port and intermodal applications more than 80 years after the original product line debuted.

Key customers: Ceres Terminals

Key features:

- Cummins turbocharged diesel engine (Tier 3-compliant)
- Dana automatic transmission
- AxleTech heavy-duty drive axle
- Removeable counterweight(s)
- True inching control; separate inching pedal
- Low profile design; excellent 360-degree visibility
- Electronic finger-tip hydraulic controls
- Adjustable air-ride seat
- Easy-access service points; flip-open hood and steps
- Multi-gauge; single-source for hydraulic pressure readings
- Superior parts/service support; extensive dealer network
- Quick lead/delivery times

P-Series Container Handlers

Empty Handler

15,000 lbs capacity

Wheelbase Options:

144"

Stacking:

Single stacking up to 5 containers high

Empty Handler

15,000 lbs capacity

Wheelbase Options:

144" & 170"

Stacking:

Single or double stacking up to 8 containers high

Loaded Handler

90,000 lbs capacity

Wheelbase Options:

235"

Stacking:

Top lift capabilities with stacking up to 6 containers high at full capacity

Tilt cab. The cab pivots at the rear, elevating the front of the cab from 0-10 degrees proportional to the lift height to provide the operator an improved line of sight when stacking empty containers at increasing heights. Tilt cab will be actuated hydraulically to provide smooth precision control. Optional for models stacking up to 5 high and standard on models stacking 6-8 high.

Taking your products to greater heights.
