

"Where Space is at a Premium"

THE MARIOTTI MYCROS IS SPECIFICALLY DESIGNED TO LIFT UP TO 2,300 LBS. IN LIMITED SPACE APPLICATIONS. Typical examples include narrow aisles, wood floors, elevators, coolers, freezers, furniture stores, appliance stores, parts departments, food warehousing, retail stores, hospitals, hotels, home improvement centers, amusement parks, universities, apartments, hotel complexes, office buildings, general warehousing and storage.

FEATURES INCLUDE:

- Standard integrated side shift
- Power steering
- Full work shift capability
- 360° appliance mover attachment
- Programmable truck functions
- Optimum visibility
- Non-marking tires
- 48" load backrest

**The Most Compact
Electric Riders
On The Market!**

V. MARIOTTI
SINCE 1920

At widths as narrow as 31" and heights as low as 75", Mycros trucks can drive through a standard door opening, maneuver elevators, navigate the narrowest aisles and still deliver a heavy payload.
