

Floor Sweeper Cleaning Solutions

S10

Sweep Path: 34"

The Tennant S10 Walk-Behind Sweeper delivers durable, high-performance cleaning in both tight spaces and open areas, built to handle harsh industrial environments with corrosion-proof construction and added protection. It features a 34" cleaning path, 2.8 cubic ft hopper, optional HEPA filtration for dust control, and productivity up to 43,300 sq ft.

S16

Sweep Path: 46"

The S16 battery-powered ride-on sweeper delivers high productivity and versatility in a compact design, providing excellent performance across various surfaces and debris types. With advanced dust control, fume-free operation, and a multi-stage filtration system, it features up to a 60" cleaning path, a 5.3 cubic ft hopper, and productivity up to 145,200 sq ft for efficient, high-quality sweeping.

S20

Sweep Path: 50", 62"

The S20 Compact Ride-On Sweeper delivers powerful indoor and outdoor performance in harsh environments, with innovative features that extend run time, enhance safety, and simplify maintenance. It offers 50"–62" cleaning paths, an 11 cubic ft hopper, optional HEPA filtration for dust control, and productivity up to 163,680 sq ft.

S30

Sweep Path: 62.5", 80"

The S30 Ride-On Sweeper delivers powerful, consistent cleaning for everything from fine dust to heavy debris in the toughest indoor and outdoor environments. Featuring advanced dust control, optional HEPA filtration, 62.5"–80" cleaning paths, a 14 cubic ft hopper, and productivity up to 281,600 sq ft, it's built for maximum performance.

800

Sweep Path: 66", 82"

The Tennant 800 Industrial Ride-On Sweeper is a heavy-duty, high-capacity machine built for demanding indoor and outdoor industrial environments. With 66"–82" cleaning paths, a 30 cubic ft hopper, quad filtration, and optional HEPA dust control, it delivers consistent, powerful performance and productivity up to 360,800 sq ft.

AMR Floor Sweeper Cleaning Solutions

X16

Sweep Path: 46"

Designed to enhance safety, visibility, and ease of use, this machine features a 46" cleaning path, color changing status beacon, integrated safety indicator lights, and front 3D LiDAR for improved autonomy. Lithium ion battery power with flexible charging options, color coded touch points, a side brush for edge cleaning, and an integrated DustShield system work together to maximize efficiency and simplify training and maintenance.

Outdoor Sweeping Solutions

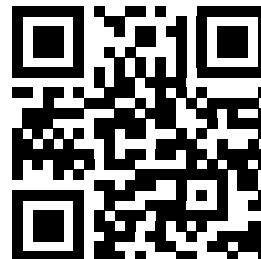

Z50

Sweep Path: 98" , 123"

The Z50 Citadel™ outdoor sweeper delivers powerful, versatile cleaning with combined mechanical and vacuum sweeping for high productivity across various surfaces and debris types. It features 98"–123" cleaning paths, a 3.5–5.4 yd³ hopper, and reliable performance for demanding outdoor environments.
